TIP - TOP GARDENS

1941

NEW LOCATION!

6505 Main St., Williamsville, N.Y. This is on Route 5, about 5.7 miles east of Buffalo city limits, and one mile west of Transit Road.

1500 varieties!

VISITORS ALWAYS WELCOME (bring your catalogs)

I SPECIALIZE IN IRISES, the most adaptable and interesting of all flowers. Also such perennials as are dependable and easy to grow in our climate, including HEMEROCALLISES, PEONIES, POPPIES, DELPHINIUMS, DAISIES, LILIES in named hybrids.

All varieties are labelled with name, rating and price on PERFECT garden labels (manufactured by Howard Hammitt, 650 Main St., Hartford, Conn.).

"To call the plants by name makes them a hundredfold more sweet and intimate" - Henry Van Dyke.

AS A HOBBY, a collection of named flowers is a never-ending source of joy and recreation. To get the most out of such a hobby we most courteously urge you to join the American Iris Society.

YOU ARE ALSO INVITED to view the choice collection of super-irises in the garden of Capt. Charles K. Bassett, secretary of the Western N.Y. Section of the A.I.S., at 2900 Main St., cor. of Huntington Ave. Here you can see all the winners of the Dykes Medal from 1927 to date. Mr. Bassett has one of the finest collections of modern irises in the United States. Phone PA. 4804 for time when garden will be open.

REMEMBER THIS DATE - June 7th and 8th 1941, when the Third Annual Iris Show under auspices of the A.I.S. will be held at Lockport in Knapp Motor Sales Rooms, 57 Locust St. Bring your choice blooms of named irises for exhibition before noon on Saturday, June 7th. No one is barred, and there are no fees.

M. FREDERICK STUNTZ

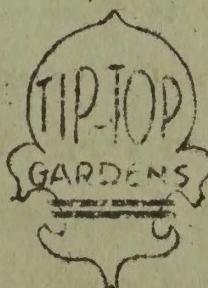

Formerly associated with the late Rev. Jacob Storer, the pioneer of iris breeders in this locality. Over one hundred of his originations are growing in our garden.

TIP-TOP SPECIAL

One of each of these five unusual irises - \$1.00.

HEXAGONA - A species which is native on the Atlantic sea-coast of the U.S. It has large royal purple flowers, with a peculiar apple-green beard, which nestles among the foliage; and the first sight of it, at the end of June, after all tall varieties have ceased blooming, is a real thrill - 25¢.

KERMESINA - A rare Japanese species, discovered by the great English horticulturist, Amos Perry. It grows and looks like a Siberian iris. Flowers are a brilliant claret-red - 25¢.

MAY ALLISON - This is the only tall bearded iris which consistently bears double flowers. It is a sport of an old French variety named Celeste. Color is azure blue with tracings of white, and the beard is white. My stock came direct from the originator, Mrs. Allison, an amateur gardener of Raleigh, N.C. - 25¢.

TECTORUM - Also known as the Japanese roof iris because in Japan the farmers plant it along the edges of thatched roofs. The large lilac-blue flowers have crests instead of a beard, and are borne on perpendicular stems 10 to 1½ inches in height. Blooms late in June. Very dainty - 25¢.

WILLIAM MOHR - One of the most sensational hybrids ever produced. Mr. Mohr, after whom it is named, was the first American to succeed in crossing a tall bearded iris (*Parisiana*) with *Gatesii*, a native of Asia Minor and Persia. It has the typical huge flower of an *onococylus* species, combined with the hardiness of its pod-parent, *Parisiana*. Color is lilac, very thickly covered and netted with dark, almost black, veins, and beatifully ruffled - 25¢.

FOR THE CONNOISSEUR

DELPHINIUM - PINKSENSATION - This is not a pale lavender, but a true larkspur pink in a perennial delphinium. It blooms continuously from early spring until fall, even after light frosts have nipped the tallest spikes. This variety has extra-ordinary carrying power, and its brilliant color penetrates and harmonizes a wide area. PINK SENSATION was an outstanding novelty at the New York World's Fair, and the demand for it is so great that nurseries are unable to fill all orders. It will be a long time before it becomes common as it rarely produces seed. My plants are two years old. - \$1.00.

HEMEROCALLISES (Day Lillies) in named varieties.

PAPAVER ORIENTALE (Oriental Poppies) in named varieties.

PEONIES in named varieties.

PERENNIAL PLANTS in named varieties.

DAHLIAS in named varieties.

3.
TIP-TOP IRISES

Most of the 20¢ irises have been superceded by superior varieties; but we grow them to illustrate the improvements made by breeders of modern irises. Many small flowered varieties are cherished on account of some unusual attribute such as fragrance, unique color or form. Collections of 10 or more, of 20¢ varieties, at half price.

Prices are for single flowering size rhizomes. Where we have a surplus to wholesale - 50% off in lots of 6 of a kind. Mixed varieties unnamed, for borders - 25¢ per peck (about 25 rhizomes).

Symbols preceding price represent color, using A.I.S. symbols.

TIP-TOP PEONIES

Prices are for single buds. We do not advise less than three buds, and dealers generally base their prices on a five-budded root. Thus the most satisfactory division of Addilanchea should have at least five buds and would cost \$1.00. Entire clumps can be moved with a ball of earth at any time. Divisions are made after October 1st.

Helianthus (Double Sunflower)	Yucca
Hesperis, (sweet rocket)	
Hibiscus	
Hollyhock, double	
Hosta, white, lilac (Plantain Lily)	Lime from Michigan is best to sweeten soil for irises, (never use hydrated lime except to kill bugs, it kills plants unless used with greatest care).
Liatris, purple (Gay Feather)	
Lily of the Valley (Convallaria)	
Linum Perenne (Blue Flax)	A balanced fertilizer never will harm your garden unless it is clay; then use plenty of manure.
Lupines	
Lychnis (Maltese Cross)	
Monarda Didyma (Bergamot)	
Penstemon, Dakota, lilac	
Phlox subulata (Mt. Pink)	

PERMANENT LABELS, printed on both sides, $\frac{3}{4}$ " wide, to order .08 each.

STAKES of No. 6 galvanized wire, $2\frac{1}{2}$ ft. long, slotted to grip firmly PERFECT, or Zinc labels08 each.

PERFECT GARDEN LABELS were chosen for my garden after experimenting with many types of markers, and I believe they are really the best. Ordinary lead pencil marks do not wash off. We can supply these, or you may order them direct from the mfr. Howard Hammitt, 650 Main St., Hartford, Conn. TIE-ON LABEL (the kind I use) is $3\frac{1}{2}$ in. long, $\frac{3}{4}$ in. wide, and comes 100 in a box with copper wires for attaching... \$3.00. without wires, 100 for 2.50

13.

W.H.T. FD	begonia rose	.50

The appearance of these spectacular Mexican flowers in late fall when all other flowers are on the wane is awe-inspiring, and well worth all the bother of watering, staking, and storing.

The Dahlia King of this locality is Prof. C. Merrill Brown, 102 Oak Grove Ave., Williamsville; who has one of the most superb collections in the United States. Visitors welcome!
